## OVERVIEW

---

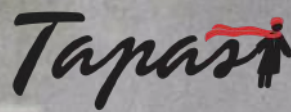

Hunger in India - a relief drive led by Tapas Foundation was conducted on 15th November 2020 in New Delhi.

The drive focussed on providing support to a community that are brutally affected by the pandemic and has been unable to feed themselves due to loss of livelihood.

Tapas Foundation aimed to extend support to the community so that they are able sustain in these hard times.

# ABOUT THE COMMUNITY

---

**Location : Jhandewalan, New Delhi**

A community of 100 families whose only source of income has been from working on creating mela pandals during Dussehra and Durga Puja in Delhi are out of work. These artisans who have made the festivals so much more beautiful for us in the past years were unable to feed themselves.

This lockdown has been harsh on them because these public events stand cancelled this year due to Covid-19. With this situation, these families are struggling to make their ends meet.

# ADDRESSING THE ISSUE

---

Hunger has always been a deep-rooted issue in India. As India ranked 102 in World Bank's Hunger Index of 2019, the pandemic only worsened this situation.

Tapas Foundation is a social reform organization which works on a grassroots level to help rid our society of social evils and, hunger is one of them. Since the lockdown began in March, we have directed our efforts towards providing relief to the marginalized communities.

We have already conducted a successful relief drive in June benefitting over 600 families with ration kits. This time we want to have a deeper impact.

# ABOUT THE RELIEF DRIVE

---

The relief drive focussed on providing the families of the community with some necessities that will help them sustain up to 3 months.

As these families are still trying hard to recover from the impact of Covid-19 and national lockdown, the relief supply will act as an aid and ease their challenges.

# RELIEF KIT

---

EVERY HUNGER IN INDIA RELIEF KIT CONTAINED THE FOLLOWING:

Every Hunger in India relief kit contained the following:

- Wheat flour (30 kgs)
- Rice (30 kgs)
- 2 types of pulses (20 kgs)
- Oil (2 litres)
- Salt (2 packets)
- Red chilli powder
- Turmeric powder
- Sugar (1 kg)
- Drinking-Water (10 big bottle)
- Detergent Powder and soap (10 packets)

Each kit would last upto 3 months and 45 families were provided with the same in the Jhandewalan Community in New Delhi.
